

Welcome!

In the wonderful nature of the Upper Savinja Valley, more precisely in Ljubno ob Savinji, which received the silver award Slovenia GREEN destination. The boutique hotel and restaurant Planinka is hidden in this place.

The story of the hotel is more than 100 years old and preserving tradition is important to us, so we, the Žerovnik family, revived Hotel Planinka in year 2010. We designed the entire architectural image of the hotel and restaurant, guided by the idea of preserving and incorporating into the story elements that are part of the region itself.

We also draw inspiration for the preparation of the tasting menu from the environment in which we work and create. The ingredients come from the local environment and thus we support the region, sustainable development, respect tradition and thus satisfy our guests.

Treat yourself to taste Slovenian top cuisine and wines in Planinka restaurant and spend the night in boutique accommodation.

The gourmet menu changes depending on the season, according to the available raw materials at a given moment.
